Experience

UC Berkeley Transfer Student Center

Berkeley, CA

Peer Advocate Lead (Communications Team)

Jul 2025 - Present

- Manage digital content and communications for 7,000+ transfer students, coordinating messaging, deadlines, and visual assets across teams.
- Analyze engagement metrics to adjust posting strategy and optimize reach during key university events.
- Produce bi-weekly newsletters, social campaigns, and student-facing resources.
- Launched an animated trivia campaign increasing student interaction and cultural engagement.

Osmo

San Francisco, CA

Growth & GTM Intern

Jan 2026 - Present

- Contributed to go-to-market strategy and beta testing for an AI motion graphics product by proposing marketing campaigns and feature enhancements aligned with user needs and client use cases.
- Assisted in planning a client-facing advertisement, supporting concept development and positioning for a forthcoming campaign.
- Conducted market research by building and maintaining a database of potential social media promoters for upcoming client launches.

Ralphs (Kroger Co.)

Anaheim Hills, CA

E-Commerce Clerk

Jul 2022 - Jul 2024

- Supported day-to-day e-commerce operations (order fulfillment, substitutions, pickup coordination) in a high-volume storefront, giving hands-on knowledge of logistics workflows and customer demand patterns.
- Delivered consistent, high-quality customer service across multiple departments (Cashier, Floral, Pickup), earning trust from managers and repeat recognition.
- Improved order turnaround by adjusting tasks during peak-hour bottlenecks.

Axcel LLC

Silverado, CA

Digital Marketing Development Volunteer

Mar 2024 - Jul 2025

- Informed the company's marketing strategies in collaboration with its managers.
- Created the company's website, digitized the company's logo, and managed its social media platforms.

Projects

Historical Web Case Study

- Used n-gram frequency analysis and data visualization to evaluate shifts in internet word usage over time.

Pandas and Seaborn Review Game

- Designed a Streamlit-based interactive review tool to help users study pandas and seaborn through progressively difficult questions, visualizations, and regression problems.

Oski 2D Game

- Developed a 2D game with world generation, lighting logic, and interactive environments.
