EDUCATION

University of California, Berkeley

Data Science BA, History BA

Berkeley, CA

Expected Dec 2026

SKILLS

- **Analytics & Optimization:** A/B Testing, Web Analytics, Conversion Rate Optimization, Experimentation Design, Performance Metrics Analysis, Data Visualization
- **Technical:** Python, Java, SQL, Excel, PowerPoint, HTML/CSS, JavaScript, Git
- **Marketing Tools:** Google Analytics, Adobe Creative Cloud, Social Media Analytics
- **Core Competencies:** Digital Marketing, UX Analysis, Cross-functional Collaboration, Data-Driven Decision Making, Stakeholder Communication

EXPERIENCE

Osmo

San Francisco, CA

Growth & GTM Intern

Jan 2026 - Present

- Contributed to go-to-market strategy and product optimization for AI motion graphics platform by analyzing user needs and proposing data-driven marketing campaigns and feature enhancements
- Supported client-facing advertising initiatives, assisting with concept development, messaging optimization, and performance positioning, helping create an ad reaching over 200,000 views in 24 hours
- Conducted market research and built database of 60+ potential social media promoters to support product launches and improve channel performance

UC Berkeley Transfer Student Center

Berkeley, CA

Peer Advocate Lead (Communications Team)

Jul 2025 - Present

- Manage digital content strategy and web communications for 7,000+ transfer students, optimizing messaging, content effectiveness, and user engagement across multiple channels
- Analyze engagement metrics and web traffic patterns using analytics tools to refine content strategy and improve conversion during critical events, helping raise over \$12,000 during a single campaign
- Launched animated trivia campaign that doubled student engagement through data-informed content personalization and UX optimization

Axcel LLC

Silverado, CA

Digital Marketing Development Volunteer

Mar 2024 - Jul 2025

- Developed digital marketing strategy in collaboration with company leadership, building company website with focus on user experience, information hierarchy, and conversion flow optimization
- Managed social media platforms, analyzing performance metrics to refine content and improve engagement

Ralphs (Kroger Co.)

Anaheim Hills, CA

E-Commerce Clerk

Jul 2022 - Jul 2024

- Optimized e-commerce order fulfillment workflows during peak periods, improving turnaround time and customer satisfaction in high-volume retail environment

PROJECTS

Historical Web Case Study

- Conducted n-gram frequency analysis on early web content to identify linguistic pattern shifts over time using Python, pandas, and data visualization libraries
- Applied statistical methods and data visualization (Seaborn, Matplotlib) to surface insights on internet language evolution, demonstrating ability to extract actionable insights from large unstructured datasets

Pandas and Seaborn Review Game

- Built Streamlit-based experimentation and testing tool featuring progressive difficulty algorithms and user performance tracking
- Designed interactive data visualization challenges to teach pandas and Seaborn library functions
